Duration	2021

Natural Resource Projects & Practices ➤ Water Quality Implementation

The project is located in southern Caribou County working with several landowners to:

- implement Soil Health practices,
- Install livestock watering systems
- make AFO improvements
- stabilize streambanks
- Install water diversion structures and fish screens
- provide outreach and education to the public

- Agricultural Lands
- Education and Outreach
- Habitat and Species
- Healthy Watersheds
- Rangelands
- Water

Location

Expenditures

No expenditures provided

Photos

No additional photos provided

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
